NEURO-IFRAH ORGANIZATION APPROVED ADVANCE COURSE:

ADVANCED FOOT FUNCTION

Course Description:

This five day Neuro-IFRAH® Organization approved advanced course is designed for physical and occupational therapists and physical and occupational therapy assistants who have successfully completed the Neuro-IFRAH® Certification Course.

This course places an emphasis on facilitating appropriate responses throughout that allows the patient the opportunity to transition out of the Perfect Response Orthosis (PRO) during Function in Upright Postures and Activities of Daily Living. Participants will be provided actual patient treatment opportunities in 4 out of 5 days of the course.

The format of the course will include lecture, lab, practice on other participants, video presentation of actual patient treatment and actual patient treatment by the participants.

OBJECTIVES:

Upon completion of the course, participants will be able

1. Identify impairments that require patients to wear the PRO.
2. Demonstrate the preparation of the patient for transitioning out of the PRO by increasing mobility and control that target the missing components of movements/ impairments.
3. Demonstrate facilitation of patient's natural responses and more normal components of movement throughout the affected LE and other body parts as needed during Function in Upright Postures and Activities of Daily Living.
4. Integrate information learned in the course with other Neuro-IFRAH information learned in previous courses.

Program Faculty:

WALEED AL-BOUDI, MOT, OTR

is a therapist and educator in the field of rehabilitation nationally and internationally. He is the originator of the Neuro-IFRAH® approach and is known for his concepts and clinical skills in the treatment and management of patients affected by a stroke or brain injury. Many of his basic to advanced concepts are copied as he was the mentor of a number of known educators for many years. He is the originator of all his intermediate to advanced concepts and applications. He is also the originator of the IFRAH® concepts and applications for patients affected by orthopedic conditions. Mr. Al-Oboudi's Neuro-IFRAH® approach includes a whole system of hands on therapy, training equipment, and orthotics that are taught by Neuro-IFRAH® Instructors at top facilities and are popular and effective courses nationally and internationally. Mr. Al-Oboudi's concepts and clinical skills are self evident and aim to set the standard of excellence in rehabilitation as they have been continuously demonstrated in live national conferences, courses, and teleconferences for over 25 years.
